

CONFIDENTIAL

11 April 1980

MEMORANDUM FOR THE DIRECTOR

FROM: Robert M. Gates
Executive Assistant

SUBJECT: National Intelligence University

1. Attached is my proposal for creation of a National Intelligence University. The package essentially is divided into three parts:

25X1 -- A proposal on the University itself, including its
mission, composition of faculty and student body, curriculum
and location.

25X1 -- Practically speaking, how one might go about creating
such a university, step by step.

25X1 -- At the tab, a breakdown of how courses presently offered
by CIA might fit into the curriculum of a National Intelligence
University, together with suggestions for some additional courses.
25X1 This is clearly illustrative and would be subject to additional
courses as well as consolidation and reorganization of some
present offerings.

2. [] has reviewed the draft and responded quite favorably. You asked that I also show the proposal to [] Do you mean [] who wrote you at the end of March proposing such a university? I have not waited for [] detailed comments because I thought it would be convenient to make this available to you for reading over the weekend. I must say I find the entire notion fairly exciting.
